Color is personal. We all have a favorite. They express our feelings, display our personalities, and spark our creativity.

Bijoux is a collection of bright silver mouldings, embellished on the outer edge in six essential colors:

- 84146** • silver with white edge
- 84147** • silver with black edge
- 84148** • silver with red edge
- 84149** • silver with yellow edge
- 84150** • silver with green edge
- 84151** • silver with blue edge

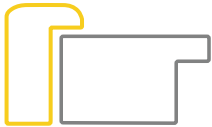

bijoux

The Bijoux Collection is ideal for small works, pieces with delicate details, and decorative works of art. Handmade in Italy, these items display the fine details of artisan finishing. A subtle hammered texture with brush lines soften the luster of the metal leaf.

Dry brushed, distressed color is applied on the outside edge to contrast the neutral surface which makes this group unique among metal leaf mouldings and petite profile collections. Bijoux is an attractive framing solution that enhances elements of color within your art as well as illuminating and uplifting your design.

△ Be Creative

Bijoux has endless possibilities to be paired with other mouldings, giving designers a wide array of customization. The generous rabbet depth (13/16") allows up to 3/4" tall mouldings to be stacked on top.
