SERENITY

Serenity evokes a natural and tranquil look-and-feel brought by simple square profiles in soft, warm neutral tones with fine brush lines and a hint of metallic leaf feathered onto the lip.

This collection is tailored towards art and photography that calls for modern-to-simple custom framing and works well with zen inspired interior design.

△ Shown above: 83941 (chalk white)

Geometric profiles set the perfect stage for artwork featuring organic shapes and natural lines of watercolors and nature photography. Serenity profiles feature tall rabbet depths on 4 items (83937-40), ideal for shadowbox framing, works on canvas, or stacking frames. These items are FloatMate™ compatible, stacking onto floater 83541 to create attractive floater frame combinations.
